BRISTOW AFRICA ENTER PARTNERSHIP WITH EASTERN AIRWAYS

News / Airlines

Bristow Africa has signed a partnership agreement with Eastern Airways to offer multiple daily return flights between Lagos and Port Harcourt City, ch-aviation reports.

The firm announced in a statement that it would employ a pair of ex-Eastern ERJ-135s to operate up to 6 daily chartered flights.

"This will be the first full branded Bristow fixed-wing aircraft in the Bristow Group fleet, and joins Bristow's other fixed-wing service offerings through its affiliates, including Eastern Airways in the UK, Airnorth and Líder Aviaçäo in Brazil." It said.

Bristow has said that the flights are aimed at all corporations, not just those in the oil and gas industry.
