OMAN AIR INFLIGHT SERVICES AWARDED ISO 9001:2008 QUALITY MANAGEMENT SYSTEM CERTIFICATE

News / Airlines

Oman Air Inflight Services has been awarded the prestigious ISO 9001:2008 Quality Management System Certificate by Bureau Veritas Certification Holding SAS and has been recognised by the United Kingdom Accreditation Service (UKAS).

Inflight services join a number of business units already holding ISO certification, including Supply Chain management and Oman Air's First and Business Class lounges at Muscat International Airport.

The ISO certification followed a quality management system audit, in all areas of the department's business process.

It shows the holder of the certification meets the needs of customers and stakeholders whilst meeting statutory and regulatory requirements.
