“Flight Consulting Group is constantly growing, and we are now ready for expansion to new markets. Our participation at SDC2018 has already delivered its benefits resulting in several contracts with the U.S. customers. In 2019, we will have a branded booth at the event. Over the year, our team has expanded and the number of supported flights has grown by more than 20 percent. We have good capacity and extensive track record in flight planning and support. We are excited to bring our services to the new continent, and I am sure that SDC attendees will see the true value of our products”, said Sergey Starkov, managing director, FCG.

FCG will showcase Dispatch & Flight Planning services, Trip Support in Europe & CIS, and Overflight & Landing Permission services at SDC2019.

FCG is one of the largest European operational control centers providing international trip support and dispatch services. More than 90 aircrafts are flying across the globe under FCG dispatch support.
