KUCHING AIRPORT CANCELS, DIVERTS FLIGHTS AS AIR INDEX WORSENS

News / Airports / Routes

All flights involving the Kuching-Pontianak and Pontianak-Kuching sector have been cancelled until further notice, said Kuching International Airport (KIA) general manager Mohd Nadzim Hashim.

"All flights to and from Pontianak has been cancelled until further notice. There are no passengers stranded from the sector here since early notice was given," he said.

He said four flights that were scheduled to depart and arrive at KIA were delayed due to the hazy condition this morning since visibility was reduced to just 800 metres.

He said the delayed flights were Kuching-Kuala Lumpur, Kuching-Sibu, Kuala Lumpur-Kuching and Sibu-Kuching.

"The delay involved 333 passengers," he told Bernama when contacted.

Nadzim said flight MH2542 from Kuala Lumpur to Kuching with 65 passengers on board was diverted to Sibu, due to the worsening haze condition in Kuching.
