FIELD INTERNATIONAL LTD APPOINTS FL TECHNICS AS ITS EXCLUSIVE REPRESENTATIVE IN EASTERN EUROPEAN AND AFRICAN MARKETS

News / Maintenance / Trainings

FL Technics, a global provider of integrated aircraft maintenance, repair and overhaul services, has announced signing a cooperation agreement with an independent global engineering enterprise Field International Ltd. Under the terms of this agreement, FL Technics shall act as an exclusive representative of Field International Ltd across multiple markets in Eastern Europe and Africa.

FL Technics will exclusively distribute a wide array of Field International Ltd products and services in Albania, Bulgaria, Bosnia-Herzegovina, Croatia, Czechia, Estonia, Latvia, Macedonia, Romania, Slovakia, Serbia, Afghanistan and almost the entire African continent.

According to its International Managing Director Richard Marples, Field International Ltd is convinced that the cooperation with FL Technics will enable airlines in Eastern Europe and Africa to benefit from world class tooling solutions for Boeing aircraft and its intellectual property tools for Airbus. "Together with FL Technics we are looking forward to offering customized tools that meet operator specific requirements," says Richard.

Having worked within the defence sector for over two decades, Field International Ltd is a dedicated Boeing, Airbus Helicopters and Airbus Defence and Space Tier 1 supplier supporting its customers around the globe. Not only does it serve a wide range of the existing products, but also assists in the production of tooling as well as the design and manufacturing of specialist equipment.

"We are delighted to partner with Field International Ltd. Having signed this agreement we brought together decades of experience in world class precision engineered products and services with a global provider of aircraft maintenance, repair and overhaul services in order to help build a safer aviation world through speed, knowledge and innovative solutions," commented the CEO of FL Technics Zilvinas Lapinskas.

About Field International Ltd: Incorporated in 1995, Field International Ltd is a privately owned independent global engineering company with a huge depth of knowledge. Company founders share decades of experience in the precision engineering sector, particularly the aerospace marketplace. Headquartered in Poole, the UK, the company boasts a dedicated workforce of highly qualified personnel which allows it to provide clients with world class precision engineered products and services. Field has invested heavily in new global regions and now operates engineering and manufacturing facilities in Singapore and China, and sales offices around the World. Field is constantly looking at expanding and have recently created a facility in the USA to cope with the ever-increasing demand.

About FL Technics: FL Technics is a global provider of aircraft maintenance, repair and overhaul (MRO) services. Company specializes in base & line maintenance, spare parts & component support, military aircraft component support, engine, APU & LG management, full aircraft engineering, technical training. FL Technics is an EASA Part-145, Part-M, Part-147, Part-21 certified company with certificate approvals in Indonesia, Bermuda and other countries. FL Technics is a member of the Avia Solutions Group family – a Warsaw Stock Exchange-listed global aviation holding company.
