DC AVIATION AL-FUTTAIM TO START OFFERING JET FUEL FROM ITS HANGAR AND LOUNGE FACILITY AT DUBAI SOUTH

News / Business aviation

Starting this month, DC Aviation Al-Futtaim (DCAF), the joint venture between DC Aviation Group and Al-Futtaim, is offering its private and business jet clients competitively priced jet fuel from their base in Dubai South at Al Maktoum International Airport.

With the addition of this new service, DCAF offers its customers a full turnkey solution including Aircraft Management, Maintenance, FBO and Ground handling services as well as Business jet charter.

“Providing excellent service and highest level of convenience has always been the cornerstone of our business. By expanding our services to include the sale of Jet A-1 fuel at a competitive price, we are in a position to offer the full range of services to our customers,” said Holger Ostheimer, Managing Director of DC Aviation Al-Futtaim.

For more information on DCAF's facilities and services, please visit www.dc-aviation.ae or call +971 4 870 1800.

DC Aviation Al-Futtaim (DCAF) is a joint venture between Stuttgart-based DC Aviation GmbH, the largest operator of business jets in Germany and one of the leading operators in Europe and Dubai-based Al-Futtaim, a privately-owned UAE business conglomerate. The JV capitalises on Al-Futtaim's strong fundamentals and presence in the Middle East, and DC Aviation's global reputation as a premium provider of aircraft management, executive charter operations, business jet maintenance and consultation services.

DCAF is the first and only fully integrated business aviation facility based out of Al Maktoum International Airport located at Dubai South (formerly Dubai World Central) with a dedicated hangar measuring 5,700sqm and a 1,300sqm exclusive VVIP lounge area designed to international standards offering customers the highest levels of comfort and privacy, shower areas and a conference room.

DCAF's core areas of business include Aircraft Management, Maintenance, FBO and Ground handling services as well as Business jet charter.

Through their line maintenance capabilities catering to various business jets; owners and operators receive a diverse range of maintenance services, from spare parts supply, procurement, and storage, to maintenance and airworthiness certification.

The Aircraft Management division is helping business jet owners to optimise their aircraft assets, by operating aircraft in an environment in line with the highest industry standards with regards to flight safety and airworthiness. Clients also benefit from significant cost saving potential on insurance, fuel purchasing, and other relevant flight support services.
