News / Business aviation, Events / Festivals

JetSmarter has announced the launch of the first-ever shared, private JetShuttle flight that will connect Europe and the Middle East, offering JetSmarter members single-seat trips on flights between Dubai and London.

The Dubai to London JetShuttle flight, which will carry passengers on Legacy 650 aircrafts, departs from Dubai on Thursdays at 8:30PM, and flights from London to Dubai will be on Fridays at 12PM. This new route will offer significant time savings for passengers traveling to and from each city, by arriving and leaving from Luton and Al Maktoum International airports, and avoiding the hassles of traveling through the two largest commercial airports in the world. Travel time on this JetShuttle route is expected to be 7 – 8 hours, door to door, and passengers will arrive to their destination with the luxury of having their car transportation waiting for them on the tarmac.
