

BAA TRAINING TO EXTEND A320 CABIN CREW TRAINING AVAILABILITY

News / Maintenance / Trainings

Global aviation training solutions provider **BAA Training** announces new capabilities for **Airbus A320 cabin crew personnel training**. Training academy is ready to provide clients with full package training at one location for Airbus A320 operators.

Adding new facilities and training equipment to the existing ones, BAA Training is able to cover full range of Airbus A320 cabin training such as Cabin Crew Conversion Course, ESET, Fire Fighting and Smoke Procedures, Ditching & Water Survival Procedures, and Door & Slide training all in one location. In addition to that, according to client need academy can run through admission process and provide initial Cabin Crew training.
