

IMPRESSIVE START TO THE YEAR - SUCCESSFUL BOMBARDIER GLOBAL MAINTENANCE BY JET MS

News / Business aviation, Maintenance / Trainings

Jet Maintenance Solutions (Jet MS), a global provider of integrated aircraft maintenance, repair and overhaul solutions for business and regional aviation, kicked off 2018 with an implemented maintenance service for a Bombardier Global 5000 type aircraft.

The aircraft was delivered by a world-renowned and highly respected European operator of business jets to the Jet MS hangar for maintenance. The Bombardier Global was delivered for minor repairs and returned to its owners.

“We are very grateful to work with such a European client who trusts our company. We hope that the client will be satisfied with our services in the future, therefore opening up opportunities to cooperate on upcoming projects. Jet MS is expanding its business and we are delighted that the company is being counted on more and more by new clients,” comments Darius Saluga, CEO of Jet Maintenance Solutions.

Last year, Jet MS received all of the relevant approvals to launch Bombardier Global 5000/6000 type aircraft maintenance. From 2017, Jet MS successfully provides its high-quality services to operators and owners of Bombardier Global 5000/6000 type aircraft. The MRO supports large-cabin business jet operators and owners with base, line maintenance

and spare-part supply services in accordance with its EASA Part-145 certificate.

Moreover, Jet MS performed well in 2017. The company delivered 23% more technical MHrs than in 2016. This year, the company will expand its services even further after receiving more certificates. Furthermore, Jet MS expects to expand its capability list with more Bombardier aircraft types, allowing the company to increase the variety of its services and attract new clients.

JET MS offers line and base maintenance for Hawker Beechcraft 700/800/800XP/850XP/900XP/750, Bombardier CRJ100/200/440, Bombardier Challenger 604/605/850 and Bombardier Global 5000/6000 aircraft.
