

# ISRAELI SKY TRAINER SELECTED ALSIM'S AL250 FLIGHT SIMULATOR

News / Maintenance / Trainings

Alsim is very pleased to announce the sale of an AL250 FNPT II simulator, SEP/MEP configuration, to Sky Trainer Ltd. The device will be installed in March 2018.

The AL250, released in 2016, is a compact, cost effective, and state of the art single pilot simulator focused on piston aircraft. It was developed with small to medium size flight training institutions in mind. EASA and FAA qualified, it addresses initial phase training needs (PPL, CPL, IR/ME) and is SEP/MEP re-configurable. In addition, it offers both classic and glass instrumentation for each flight model.

Mr Adan Gadi, a partner in Sky Trainer Ltd, explains the reasons why they chose Alsim's AL250, "We examined number of simulators and concluded that the Alsim simulator was the best and provided us the best value for money. When we visited the factory, we were very impressed by the staff's professionalism. So far, we are very pleased with the kindness and service we received."

Mrs Audrey Jeffroy, Alsim's Sales Director, emphasizes, "We are proud to welcome Sky Trainer, our first client in Israel, to our client's base. We are pleased to help them offer the best training to their pilots and to contribute to the expansion of their business."

The simulator will be operated under the name of “Sky Trainer Ltd” - advanced simulator & pilot centre- which operates in conjunction with Sky Aviation. Sky Aviation is a registered flight school, which operates under the supervision of the Israeli Ministry of Transport and Civil Aviation Authority. Sky Aviation is the largest flight school in Israel today. Apart from the school, the company operates air taxis and offers additional air activities such as: executive flights in Israel and abroad, private flights and guided sightseeing tour flights combined with hotels and aerial photography.
